INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of the Township Committee Township of Frankford Augusta, New Jersey 07822

Report on the Financial Statements

We have audited the accompanying balance sheets - regulatory basis of the various funds and account group of the Township of Frankford in the County of Sussex, as of December 31, 2016 and 2015, the related statement of operations and changes in fund balance - regulatory basis for the years then ended, and the related statement of revenues - regulatory basis and statement of expenditures - regulatory basis of the various funds for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division"), and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate

Honorable Mayor and Members of the Township Committee Page 2

in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by the Township of Frankford on the basis of the financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matters discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the Township of Frankford as of December 31, 2016 and 2015, or changes in financial position for the years then ended.

Basis for Qualified Opinion on Regulatory Basis Accounting Principles

We are unable to obtain sufficient evidence to support the cost of fixed assets. As more fully described in Note 1, due to the length of time over which these fixed assets were acquired, it is not practical to determine their actual costs. We are, therefore, unable to express an opinion as to the general fixed assets account group at December 31, 2016 and 2015, stated as \$5,917,097.62 and \$5,913,438.86 respectively.

Qualified Opinion on Regulatory Basis of Accounting

In our opinion, except for the effects of the matters described in "Basis for Qualified Opinion on Regulatory Basis Accounting Principles" paragraph, the financial statements referred to above present fairly, in all material respects, the regulatory basis balances sheets as of December 31, 2016 and 2015, the regulatory basis statements of operations for the years then ended and the regulatory basis statements of revenues and expenditures for the year ended December 31, 2016 in accordance with the basis of financial reporting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

Honorable Mayor and Members of the Township Committee Page 3

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township of Frankford's basic financial statements. The supplementary information listed in the table of contents and the letter of comments and recommendations section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information listed in the table of contents are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information listed in the table of contents, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The letter of comments and recommendations section has not been subject to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 11, 2017 on our consideration of the Township of Frankford's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township of Frankford's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2016 AND 2015

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB Codification establishes seven fund types and two account groups to be used by governmental units when reporting financial position and results of operations in accordance with accounting principals generally accepted in the United States of America (GAAP).

The financial statements of the Township of Frankford have been prepared in conformity with accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey (the "Division") which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township accounts for its financial transactions through the following separate funds which differ from the fund structure required by GAAP.

A. <u>Reporting Entity</u>

The Township of Frankford (the "Township") operates under a Township Committee form of government. The Township's major operations include public safety, road repair and maintenance, sanitation, fire protection, recreation and parks, health services, and general administrative services.

GASB has issued Statement No. 14 which requires the financial reporting entity to include both the primary government and those component units for which the primary government is financially accountable. Financial accountability is defined as appointment of a voting majority of the component unit's board, and either a) the ability to impose will by the primary government, or b) the possibility that the component unit will provide a financial benefit to or impose a financial burden on the primary government.

However, the municipalities in the State of New Jersey do not prepare financial statements in accordance with GAAP and thus do not comply with all of the GASB pronouncements. The financial statements contained herein include only those boards, bodies, officers or commissions as required by NJS 40A:5-5. Accordingly, the financial statements of the Township do not include the volunteer fire department which is considered a component unit under GAAP. Complete financial statements of the above components can be obtained by contacting the Treasurer of the respective entity.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Accounting

The Township uses funds, as required by the Division, to report on its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial administration by segregating transactions related to certain Township functions or activities. An account group, on the other hand, is designed to provide accountability for certain assets and liabilities that are not recorded in those Funds.

The Township has the following funds and account groups:

<u>Current Fund</u> - This fund accounts for resources and expenditures for governmental operations of a general nature, including Federal and State grants.

<u>Trust Funds</u> - Trust Funds are used to account for assets held by the government in a trustee capacity. Funds held by the Township as an agent for individual, private organizations, or other governments are recorded in the Trust Funds.

<u>Other Trust Fund</u> - This fund is established to account for the assets and resources which are also held by the Township as a trustee or agent for individuals, private organizations, other governments and/or other funds.

<u>Animal Control Trust Fund</u> - This fund is used to account for fees collected from dog licenses and expenditures which are regulated by NJS 4:19-15.11.

<u>General Capital Fund</u> - This fund is used to account for the receipt and disbursement of funds used for acquisition or improvement of general capital facilities, other than those acquired in the Current Fund.

<u>Public Assistance Fund</u> - This fund is used to account for the receipt and disbursement of funds that provide assistance to certain residents of the Township pursuant to Title 44 of New Jersey Statutes. The Township transferred administration of the general assistance program to the Sussex County Board of Social Services. The funds remaining in the Public Assistance Fund are used to assist certain residents who do not qualify for the General Assistance Program.

<u>General Fixed Assets Account Group</u> - To account for all fixed assets of the Township. The Township's infrastructure is not reported in the group.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. <u>Basis of Accounting (continued)</u>

A modified accrual basis of accounting is followed by the Township of Frankford. Under this method of accounting revenues, except State/Federal Aid, are recognized when received and expenditures are recorded, when incurred. The accounting principles and practices prescribed for municipalities by the Division differ in certain respects from accounting principles generally accepted in the United States of America (GAAP) applicable to local governmental units. The more significant differences are as follows:

Property Tax Revenues - Real property taxes are assessed locally, based upon the assessed value of the property. The tax bill includes a levy for Municipal, County and School purposes. The bills are mailed annually in June for that calendar year's levy. Taxes are payable in four quarterly installments on February 1, May 1, August 1, and November 1. The amounts of the first and second installments are determined as one quarter of the total tax levied against the property for the preceding year. The installment due the third and fourth quarters is determined by taking the current year levy less the amount previously charged for the first and second installments, with the remainder being divided equally. If unpaid on these dates, the amount due becomes delinquent and subject to interest at 8% per annum, or 18% on any delinquency amount in excess of \$1,500. The school levy is turned over to the Board of Education as expenditures are incurred, and the balance, if any, must be transferred as of June 30, of each fiscal year. County taxes are paid quarterly on February 15, May 15, August 15 and November 15, to the County by the Township. When unpaid taxes or any municipal lien, or part thereof, on real property, remains in arrears on the 11th day of the 11th month of the year levied, the collector in the municipality shall subject to the provisions of the New Jersey Statutes enforce the lien by placing the property on a tax sale. Annual in rem tax foreclosure proceedings are instituted to enforce the tax collection or acquisition of title to the property by the Township. In accordance with the accounting principles prescribed by the State of New Jersey, current and delinquent taxes are realized as revenue when collected. Since delinquent taxes and liens are fully reserved, no provision has been made to estimate that portion of the taxes receivable and tax title liens that are uncollectible. GAAP requires tax revenues to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

<u>Miscellaneous Revenues</u> - Miscellaneous revenues are recognized on a cash basis. Receivables for the miscellaneous items that are susceptible to accrual are recorded with offsetting reserves on the balance sheet of the Township's Current Fund. GAAP requires such revenues to be recognized in the accounting period when they become susceptible to accrual.

<u>Grant Revenues</u> - Federal and State grants, entitlements or shared revenues received for purposes normally financed through the Current Fund are recognized when anticipated in the Township's budget. GAAP requires such revenues to be recognized in the accounting period when they become susceptible to accrual.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Accounting (continued)

Budgets and Budgetary Accounting

An annual budget is required to be adopted and integrated into the accounting system to provide budgetary control over revenues and expenditures for the current fund. Budget amounts presented in the accompanying financial statements represent amounts adopted by the Township and approved by the State Division of Local Government Services per N.J.S.A. 40-A:4 et seq.

The Township is not required to adopt budgets for the following funds:

Animal Control Trust Fund General Capital Fund Trust Fund

The governing body shall introduce and approve the annual budget not later than February 10, of the fiscal year. The budget shall be adopted not later than March 20, and prior to adoption must be certified by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. The Director of the Division of Local Government Services, with the approval of the Local Finance Board may extend the introduction and approval and adoption dates of the municipal budget. The budget is prepared by fund, function, activity and line item (salary or other expense) and includes information on the previous year. The legal level of control for appropriations, those made after the adoption of the budget and determination of the tax rate, may be authorized by the governing body of the municipality. During the last two months of the fiscal year, the governing body may, by a 2/3 vote, amend the budget through line item transfers. Management has no authority to amend the budget without the approval of the Governing Body. Expenditures may not legally exceed budgeted appropriations at the line item level. Several budget transfers were approved by the governing body.

<u>Expenditures</u> - Are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with an encumbrance accounting system. Outstanding encumbrances at December 31, are reported as a cash liability in the financial statements. Unexpended or uncommitted appropriations, at December 31, are reported as expenditures through the establishment of appropriations reserves unless canceled by the governing body. GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

<u>Encumbrances</u> - Contractual orders outstanding at December 31, are reported as expenditures through the establishment of an encumbrance payable. Encumbrances do not constitute expenditures under GAAP.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2016 AND 2015 (CONTINUED)

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. <u>Basis of Accounting (continued)</u>

<u>Appropriation Reserves</u> - Are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as additions to income. Appropriation reserves do not exist under GAAP.

<u>Compensated Absences</u> - Expenditures relating to obligations for unused vested accumulated vacation and sick pay are not recorded until paid. GAAP requires that the amount that would normally be liquidated with expendable available financial resources be recorded as an expenditure in the operating funds and the remaining obligations be recorded as a long-term obligation.

<u>Property Acquired for Taxes</u> - Is recorded in the Current Fund at the assessed valuation when such property was acquired and fully reserved. GAAP requires such property to be recorded in the General Fixed Assets Account Group at market value on the date of acquisition.

<u>Interfunds</u> - Interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. Interfund receivables in the other funds are not offset by reserves. GAAP does not require the establishment of an offsetting reserve.

<u>Inventories</u> - The costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The costs of inventories are not included on the various balance sheets.

<u>Cash and Investments</u> - Cash includes amounts in demand deposits as well as short-term investments with a maturity date within one year of the date acquired by the government. Investments are stated at fair value and are limited by NJSA 40A:5-15.1(a).

<u>Deferred Charges to Future Taxation Funded and Unfunded</u> - Upon the authorization of capital projects, the Township establishes deferred charges for the costs of the capital projects to be raised by future taxation. Funded deferred charges relate to permanent debt issued, whereas unfunded deferred charges relate to temporary or non-funding of the authorized cost of capital projects. According to N.J.S.A. 40A:2-4, the Township may levy taxes on all taxable property within the local unit to repay the debt. Annually, the Township raises the debt requirements for that particular year in the current budget. As the funds are raised by taxation, the deferred charges are reduced.

<u>Comparative Data</u> - Comparative data for the prior year has been presented in the accompanying balance sheets and statements of operations in order to provide an understanding of changes in the Township's financial position and operations. However, comparative data have not been presented in all statements because their inclusion would make certain statements unduly complex and difficult to understand.

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2016 AND 2015 (CONTINUED)

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basis of Accounting (continued)

<u>Use of Estimates</u> - The preparation of financial statements requires management of the Township to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

<u>General Fixed Assets</u> - The Township of Frankford has developed a fixed asset accounting and reporting system, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles.

Fixed Assets used in Governmental Operations (general fixed assets) are accounted for in the General Fixed Assets Account Group. Public domain (infrastructure) general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets sidewalks and drainage systems are not capitalized.

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available.

No depreciation has been provided for in the financial statements.

Expenditures for construction in progress are recorded in the Capital funds until such time as the construction is completed and put into operation.

Actuarial Assumptions

The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of July 1, 2014, which rolled forward to June 30, 2015. This actuarial valuation used the following assumptions, applied to all periods in the measurement.

Inflation Salary Increases: 2012-2021 Thereafter 3.04 Percent

2.15-4.40 Percent (based on age) 3.15-5.40 Percent (based on age)

Investment Rate of Return

7.90 Percent

The actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

Mortality Rates

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for males and females) for service retirement and beneficiaries of former members with adjustments for mortality improvements from the base year of 2012 based on Projection Scale AA. The RP-2000 Disabled Mortality Tables (setback three years for males and setback 1 year for females) are used to value disable retirees.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.90% at June 30, 2015) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class target asset allocation as of June 30, 2015 are summarized in the following table:

Discount Rate

ر دوله المرتجل

The discount rate used to measure the total pension liability was 4.90% and 5.39% as of June 30, 2015 and 2014, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 3.80% and 4.29% as of June 30, 2015 and 2014, respectively, based on the Bond Buyer GO 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

NOTE 11: ACCRUED SICK AND VACATION BENEFITS

The Township has permitted employees to accrue unused sick pay, which may be taken as time off or paid upon retirement or separation at the employee's current rate at such termination. It is expected that the cost of such unpaid compensation would be included in the Township's budget operating expenditures in the year in which it is used. It is estimated that current cost of such unpaid compensation would approximate \$217,584.28.

This amount is not reported either as an expenditure or a liability. The Township has reserved \$60,909.69 from previous budgets to be used to offset this liability and is reflected on the Trust Fund balance sheet. See Exhibit B-7 for an analysis. It is expected that any remaining cost of such unpaid compensation the would be included in the Township's budget operating expenditures in the year in which it is used.

NOTE 12: CASH, CASH EQUIVALENTS AND INVESTMENTS

<u>Cash</u>

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Township's policy is based on New Jersey Statutes requiring cash be deposited only in New Jersey based banking institutions that participate in New Jersey Governmental Depository Protection Act (GUDPA) or in qualified investments established in New Jersey Statutes 40A:5-15.1(a) that are treated as cash equivalents. As of December 31, 2016, \$-0- of the Township's bank balance of \$3,924,273.80 was exposed to custodial credit risk.

Investments

Investment Rate Risk

The Township does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. However, New Jersey Statutes 40A:5-15.1(a) limits the length of time for most investments to 397 days.

Credit Risk

New Jersey Statutes 40A:5-15.1(a) limits municipal investments to those specified in the Statutes. The type of allowance investments are Bonds of the United States of America, bonds or other obligations of the towns or bonds or other obligations of the local unit or units within which the Township is located: obligations of federal agencies not exceeding 397 days; government money market mutual funds; the State of New Jersey Cash Management Plan; local government investment pools; or repurchase of fully collateralized securities.

Concentration of Credit Risk

The Township places no limit on the amount the Township may invest in any one issuer.

NOTE 13: RISK MANAGEMENT

The Township is exposed to various risks of loss related to general liability, automobile coverage, damage and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Township has obtained insurance coverage to guard against these events which will provide minimum exposure to the Township should they occur. During the 2016 calendar year, the Township did not incur claims in excess of their coverage and the amount of coverage did not significantly decrease.

NOTE 17: POST-RETIREMENT BENEFITS

Plan Description

The Township of Frankford contributes to the State Health Benefits Program (SHBP), a cost-sharing, multi-employer defined benefit post-employment healthcare plan administered by the State of New Jersey Division of Pensions and Benefits. SHBP was established in 1961 under N.J.S.A. 52:14-17.25 et seq., to provide health benefits to State employees, retirees, and their dependents. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code. SHBP provides medical, prescription drugs, mental health/substance abuse, and Medicare Part B reimbursement to retirees and their covered dependents.

The SHBP was extended to employees, retirees, and dependents of participating local public employers in 1964. Local employers must adopt a resolution to participate in SHBP. In 1991, Township of Frankford authorized participation in the SHBP's post-retirement benefit program through resolution. Eligible retired employees and their dependents covered under the program, including surviving spouses will receive benefits based on 25 years or more of service credited in such retirement system, excepting

the employees who elected deferred retirement but including the employees who retired on disability pensions based on fewer years of service credited, and also to reimburse such retired employees for their premium charges under Part B of the Federal Medicare Program covering the retired employees and their spouse in accordance with the regulations of the SHBP. In 2005, the Township of Frankford adopted chapter 48 through resolution, which allows employees to retire with all benefits listed above, with the exception that benefits will commence after fifteen (15) years of service with the township, and a minimum age of 62.

The State Health Benefits Commission is the executive body established by statute to be responsible for the operation of SHBP. The State of New Jersey Division of Pensions and Benefits issues a publicly available financial report that includes financial statements and required supplementary information for the SHBP. That report may be obtained by writing to: State of New Jersey Division of Pensions and Benefits, P. O. Funding Policy

Participating employers are contractually required to contribute based on the amount of premiums attributable to their retirees. Post-retirement medical benefits under the plan have been funded on a pay-as-you-go basis since 1994. Prior to 1994, medical benefits were funded on a actuarial basis.

Contributions to pay for the health premiums of participating retirees in the SHBP are billed to the Township of Frankford on a monthly basis. Funds for retiree health premiums are raised each year in the municipality via property taxes.

The Township of Frankford contributions for SHBP for the years ended December 31, 2016, 2015 and 2014, were \$6,194.76, \$5,898.60, and \$6,283.36, respectively, which equaled the required contributions for each year. There were approximately 1, 1, and 1 retired participants eligible at December 31, 2016, 2015, and 2014, respectively.

NOTE 18: CONTINGENT LIABILITIES

Township Counsel, who was appointed on January 1, 2016, indicated that he was unaware of any facts that would indicate that the Township was threatened with any potential litigation as of December 31, 2016, that would be material as defined in Frankford Township's letter of [date], either individually or collectively. He stated this based on his review of records provided to him by the prior Township attorney.

INDEPENDENT AUDITOR'S REPORT INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the Township Committee Township of Frankford Augusta, New Jersey 07822

We have audited, in accordance with auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey; and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States, the financial statements-regulatory basis of the Township of Frankford in the County of Sussex as of and for the year ended December 31, 2016 and the related notes to the financial statements, and have issued our report thereon dated April 11, 2017, which was adverse due to being presented in accordance with New Jersey regulatory basis of accounting. The regulatory basis opinion was qualified for the Fixed Asset account group not being audited.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements-regulatory basis, we considered the Township of Frankford's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements-regulatory basis, but not for the purpose of expressing an opinion on the effectiveness of the Township of Frankford's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township of Frankford's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any

Honorable Mayor and Members of the Township Committee Page 2

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Finding and Responses, as 2016-01, that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township of Frankford's financial statements-regulatory basis are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

However, we noted certain immaterial instances of noncompliance that we have reported to the management of the Township of Frankford in the accompanying comments and recommendations section of this report.

Township of Frankford's Response to Findings

The Township of Frankford's response to the findings identified in our audit are described in the accompanying Schedule of Findings and Responses. The Township of Frankford's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township of Frankford internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township of Frankford internal controls and compliance. Accordingly, this communication is not suitable for any other purpose.

TOWNSHIP OF FRANKFORD

SUMMARY OF FINDINGS AND RESPONSES YEAR ENDED DECEMBER 31, 2015

Summary of Auditor's Results:

A qualified opinion was issued on the Township's financial statements prepared on an other comprehensive basis of accounting.

The audit did disclose a significant deficiency in the internal controls of the Township.

The Township was not subject to the single audit provisions of U.S. Uniform Guidance (the "Circular") and State Circular 15-08 OMB for 2016 as grant expenditures were less than the single audit thresholds identified in the U.S. Uniform Guidance and N.J. State Circular.

<u>Findings Relating to the Financial Statements which are required to be Reported in Accordance</u> with Generally Accepted Government Auditing Standards:

The audit did disclose findings required to be reported under Generally Accepted Government Auditing Standards, as follows:

Finding 2016-01:

Segregation of Duties

The Township does not maintain an adequate segregation of duties within the Treasury and Tax Collector Departments. Segregation of duties refers to separating those functions that place too much control over a transaction or class of transactions that would enable a person to misappropriate funds and prevent detection within a reasonable period of time. These situations occur because of the limited number of employees qualified to perform other accounting functions. The Township was made aware of this lack on internal control and will consider strengthening Internal Control within reason of the costs and benefits derived.

Management Response:

The Township will consider strengthening internal control within reason of costs, benefits derived and budget constraints.

Findings and Questioned Costs for Federal Awards:

Findings and Questioned Costs for State Awards:

GENERAL COMMENTS

Cash Balances

Cash balances in all funds were verified, by independent certificates obtained from the depositories, as of December 31, 2016 and April 11, 2017, in connection with the supplemental reconciliations made for all officials. Cash on hand was counted on that date.

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4

N.J.S. 40A:11-3 states:

a. "When the cost or price of any contract awarded by the contracting agent in the aggregate does not exceed in a contract year the total sum of \$17,500, or \$21,000 effective July 1, 2005, the contract may be awarded by a purchasing agent when so authorized by ordinance or resolution, as appropriate to the contracting unit, of the governing body of the contracting unit without public advertising for bids, except that the governing body of any contracting unit may adopt an ordinance or resolution to set a lower threshold for the receipt of public bids or the solicitation of competitive quotations. If the purchasing agent is qualified pursuant to subsection b. of section 9 of P.L. 1971, c.198 (C.40A:11-9), the governing body of the contracting unit may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section.

b. Any contracts made pursuant to this section may be awarded for a period of 24 consecutive months, except that contracts for professional services pursuant to subparagraph (I) of paragraph (a) of subsection (1) of section 5 of P.L. 1971, c.198 (C.40A:11-5) may be awarded for a period not exceeding 12 consecutive months. The Division of Local Government Services shall adopt and promulgate rules and regulations concerning the methods of accounting for all contracts that do not coincide with the contracting unit's fiscal year.

c. The Governor, in consultation with the Department of the Treasury, shall, no later than March 1 of every fifth year beginning in the fifth year after the year in which P.L. 1999, c.440 takes effect, adjust the threshold amount and the higher threshold amount which the governing body is permitted to establish, as set forth in subsection a. of this section, or the threshold amount resulting from any adjustment under this subsection, in direct proportion to the rise or fall of the index rate as that term is defined in section 2 of P.L. 1971, c.198 (C.40A:11-2), and shall round the adjustment to the nearest \$1,000. The Governor shall, no later than June 1 of every fifth year, notify each governing body of the adjustment. That adjustment shall become effective on July 1 of the year in which it is made."

N.J.S. 40A:11-4 states: "Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. The governing body of a contracting unit may, by resolution approved by a majority of the governing body and subject to subsection b. and c. of this section, disqualify a bidder who would otherwise be determined to be the lowest responsible bidder, if the governing body finds that it has had prior negative experience with the bidder."

Contracts and Agreements Required to be Advertised for N.J.S.A. 40A:11-4 (continued)

Effective July 1, 2015, the bid threshold in accordance with N.J.S.A. 40A:11-3 and 40A:11-4 (as amended) is \$17,500.00 and with a qualified purchasing agent the threshold may be up to \$40,000.00.

The Governing Body of the Township of Frankford have the responsibility of determining whether the expenditures in any category will exceed the bid threshold within the fiscal year and where question arises as to whether any contract or agreement might result in violation of the statute, the Township Attorney's opinion should be sought before a commitment is made.

The minutes indicated the bids were requested by public advertising per N.J.S.A. 40A:11-4. The minutes also indicated that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 40A:11-5 for Township Appraiser, Engineer, Auditor, Attorney, Municipal Prosecutor, Township Planner, Special Prosecutor, Insurance Agent and Bond Counsel.

Inasmuch as the system of records did not provide for the accumulation of payments for categories for the performance of any work or the furnishing or hiring of any material or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear cut violation existed. None were noted.

Our review of the Township's minutes indicated that resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 40A:11-5.

Our examination of expenditures did not reveal any individual payments, contracts or agreements in excess of the statutory threshold "for the performance of any work or the furnishing or hiring of any materials or supplies," other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provisions of N.J.S.A. 40A:11-6.

Collection of Interest on Delinquent Taxes and Assessments

The statute provides the method of authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when then would become delinquent.

The Governing Body, on January 4, 2016, adopted the following resolution authorizing interest to be charged on delinquent taxes:

WHEREAS, NJSA 54:4-67 has been amended to define a tax delinquency as follows:

"Delinquency means the sum of all taxes and municipal charges due on any given parcel of property covering any number of quarters or years. The governing body may also fix a penalty to be charged to a taxpayer with a delinquency prior to the end of a calendar year. The penalty so fixed shall not exceed six (6%) percent of the amount of the delinquency," and

WHEREAS, NJSA 54:5-61 has been amended relating to the amount to be charged on account of a tax sale certificate as follows:

Collection of Interest on Delinquent Taxes and Assessments (continued)

"When the taxes, interest and costs so exceed the sum of \$5,000.00 (five thousand dollars), such additional sum shall be equal to four (4%) percent of such amount paid; and when that sum exceeds the sum of \$10,000.00 (ten thousand dollars), such additional sum shall be equal to six (6%) percent of such amount paid. This section shall also apply to all existing certificates held by municipalities on the effective date of this act," and

WHEREAS, in order for the aforesaid additional penalty of six (6%) percent of the amount of the delinquency in excess of \$10,000.00 (ten thousand dollars) to become effective, the Township is required to enact this enabling Resolution.

NOW, THEREFORE BE IT RESOLVED by the Township Committee of the Township of Frankford that the intent and purpose of the aforesaid two statutory changes are hereby implemented and effective January 01, 2016 a penalty of six (6%) percent of any tax delinquency incurred prior to the end of the calendar year, and

BE IT FURTHER RESOLVED that the Township of Frankford hereby charges such additional six (%) percent penalty on all existing tax sale certificates held by the Township where said sum exceeds \$10,000.00 (ten thousand dollars), which penalty shall be applied to all certificates presently held by the Township as well as those which may be subsequently acquired by it as a result of future tax sales, and

BE IT FURTHER RESOLVED that the rate of interest to be charged by the Township of Frankford for the non-payment of taxes or assessments on or before the date that the same shall become delinquent, according to NJSA 54:4-67 in such case made and provided, be and is hereby fixed at the rate of eight (8%) percent per annum on the first \$1,500.00 (fifteen hundred dollars) of delinquency and eighteen (18%) percent per annum on any amount in excess, said interest to be charged upon the whole or any portion of any taxes or any payment to installment thereof remaining delinquent, provided that no interest as aforesaid shall be charged if the payment of any installment is made within ten days after the date upon which the same shall have become payable.

It appears from an examination of the Collector's record, that interest was collected in accordance with the foregoing resolution.

Delinquent Taxes and Tax Title Liens

The last tax sale was held on February 4, 2016 and was complete except for prior years balances which are properties in bankruptcy.

Inspection of tax sale certificates on file, revealed that all tax sale certificates were available for audit.

Delinquent Taxes and Tax Title Liens (continued)

The following comparison is made of the number of tax title liens receivable on December 31 of the last three years:

Year		Number of Liens
2016	. · · · ·	22
2015		24
2014		23

It is essential to good management that all means provided by statute be utilized, to liquidate tax title liens in order to get such properties back on a taxpaying basis.

Verification of Delinquent Taxes and Other Charges

A test verification of delinquent charges and current payments was made in accordance with the regulations of the Division of Local Government Services.

The result of the test which was made as of December 31, 2016 is not yet known, but a separate report will be rendered if any irregularities are detected. In addition, analytical review procedures were utilized to ascertain the validity of the receivables.

Municipal Court

The report required by statute covering the accounts of the Municipal Court, has been filed under separate cover with the Judge, Township Clerk and Division of Local Government Services. We noted however, that there are internal control problems that are throughout the State of New Jersey Municipal Court system caused by the implementation of the Automated Traffic System and the Automated Complaint System.

Segregation of duties refers to separating those functions that place too much control over a transaction or class of transactions that would enable a person to misappropriate funds and prevent detection within a reasonable period of time. These situations occur because of the limited number of employees qualified to perform other accounting functions. The Township was made aware of this lack on internal control and will consider strengthening Internal Control within reason of the costs and benefits derived.
